## PH1NV Adjustable Metering Valve

The Model PH1NV is a rugged and adjustable orifice, which is settable to any desired leak rate. Adjustment is via a recessed setscrew, minimizing the chances of inadvertent or unauthorized adjustment. The PH1NV's leak setting can be easily monitored and maintained via the Model LD20 NIST traceable handheld calibrator.

### Specifications:

#### Inlet

1/8" NPTM port

#### Outlet

Barbed Fitting

#### Pressure Range

Vacuum to 170 psig

#### Adjustment

Via .050" Allen Wrench

#### Calibration Setting

The PH1NV Adjustable Metering Valve is the perfect tool to help calibrate and test the newest standard in pneumatic leak detectors - Air Leak Testing versatile and easy to use Model 2110 Bench Top or Model 2120 NEMA enclosure version pneumatic leak detector.

Model 2110 Bench Top

Model 2120 NEMA Enclosure

LD20 with PH1NV Adjustable Metering Valve
